

Dear The Pennsylvania State House, The Pennsylvania State Senate and Governor Tom Corbett,

We are pleased to present you with this petition affirming one simple statement:

"We call on Pennsylvania's legislature and governor to enact a severance tax on gas extracted from the Marcellus Shale to help pay for effective regulatory oversight of hydrofracturing operations, proper cleanup of any environmental damage, and repair of roads and other infrastructure affected by drilling operations. This tax should be paid by the natural gas drilling companies, and portions of these funds must go to local and county governments and to environmental protection and remediation."

Attached is a list of individuals who have added their names to this petition, as well as additional comments written by the petition signers themselves.

Sincerely,
Central Susquehanna Citizens Coalition (CSCC)

Fracking is bad for the environment and business. At the very least it should be heavily taxed.

George M. Jenks
Lewisburg, PA

Jennie Stevenson
Lewisburg, PA

Please join every other state that has natural gas drilling in enacting a severance tax. To state that energy companies will leave PA as the result of such a tax is to ignore the facts. They have not left any other state. There is too much shale in PA to leave - and they have too much invested to do so at this point.

Mary Ann Stanton
Winfield, PA

Kerry hoffman
watsontown, PA

No reason not to!

Linda Sterling
Mifflinburg, PA

Are we really deciding between tax gifts for big oil / gas companies and education funding?

Ken Field
Lewisburg, PA

I agree and including all game commission money from any drilling should go to the States General fund it belong to the tax payers

PatrickFallon
Watsontown, PA

It is entirely unconscionable that the drillers pay little or nothing for the destruction and risk occasioned by their exceedingly profitable activity. If taxed, they will not go away.

Lois Purcell
Lewisburg, PA

Thank you for taking this matter seriously.

Lyn Mathias
Lewisburg, PA

Elaine L, Jones
Arendtsville, PA

There is no way that Pennsylvania tax payers should give away OUR natural resources so cheaply to the oil giants. There is even LESS excuse to make us pay for cleaning up their destruction of our state. If fracking is so darned safe, why can't it be subject to the Clean Water Act and Clean Air Act? If fracking is so darned safe, why should all those hundreds of chemicals be kept SECRET from us? Pennsylvanians' well being is your FIRST responsibility. No number of short-term jobs is worth the long-term destruction of our state for ourselves and our children. Tax the extractors not only for the immediate, acknowledged damage to our infrastructure and environment, but make them set up a SuperFund for remediation of the damages that are now beginning to emerge from ongoing scientific studies.

Mary Clark

Gas companies should pay a fee for withdrawal of natural gas and the funds should be largely returned to townships and municipalities with permitted sites. The legacy of this is great and we will need help defraying the costs to our PA citizens.

Susan Mathias
Lewisburg, PA

Kathleen Sutton
Selinsgrove, PA

Kathleen Fornataro
Lewisburg, PA

It is obvious that PA needs to tax the Marcellus Shale drilling to pay for the inevitable cleanup.

Patricia T. Fisher
Lewisburg, PA

Catherine Sisson
Lewisburg, PA

A severance tax is a no-brainer. We need proper regulation of gas drilling and it is certainly appropriate for the gas companies who profit to contribute to clean up and repair.

Patricia Longley
Lewisburg, PA

Gas drillers must pay taxes. Taxes must be garnered to pay for monitoring, roads, water treatment, education programs that are training workers for drilling-related jobs, healthcare programs for residents & workers affected by gas & chemicals used/spilled/handled in process of fracking. Gas industry is making money destroying our state, our forests, lands, rivers. Don't ask me to pay for their mistakes and profits.

Barbara Woodson
Lewisburg, PA

It is critical that Pennsylvania manages both the environmental and financial issues related to gas drilling. Please pass a reasonable yet aggressive tax on the companies. Thank you for your consideration. Carolyn Coldren

The long history of resource extraction gone wrong is more than enough evidence to come to the conclusion that we must tax the extraction industry. The gas industry is making money destroying our state, our forests, lands, rivers. They will still be here if you tax them, there is money to be made. We need to at least protect ourselves by monitoring the wells, and creating a fund to clean up the inevitable messes and prepare for the bust that always follows the boom.

Samantha Pearson
Lewisburg, PA

Michele Kittell
Lewisburg, PA

Sir, your job as Pennsylvania governor is to serve the people of the Commonwealth. We are not well-served when we have to close schools while multi-national corporations escape paying their fair share of taxes - taxes that every other gas-producing state requires them to pay. There is a cost to doing business and taxes are a part of that cost. Please serve us well and enact a severance tax for gas extractors. Its only fair.

Marcella Nolan
Lewisburg, PA

There should actually be a total ban on gas extraction in PA until a safe way can be explored. This is a first step though.

Sue Laidacker
Danville, PA

Tom Rosencrans
Northumberland, PA

Fracking is a danger to the environment. That's a fact. Corbett needs to understand that his needs DON'T come first. Those of the people of PA do. Gas companies are too greedy to leave because of a tax. The tax must be a heavy one. One that reflects the damage they are and will cause. Corbet can pay back his debt to the gas companies for buying the governors chair with his own funds not with those of the PA coffers. I'd like to see a total ban of gas drilling and fracking in PA. We can start with a heavy tax.

David Laidacker

It's time the companies using our precious state resources contribute to a safe environment and to undo their impact on our infrastructure. There is no reason the general taxpayer should have to pay for this.

Denise Davidso
Lewisburg, PA

Frank Goodkin
Phoenixville, PA

Having worked in the industry-on the civil/environmental side of gas infrastructure projects, there is no question in my mind that there needs to be effective regulatory oversight. Dam safety, PA DOT and all other regulatory agencies are swamped and do not have the resources to handle the projects-existing or proposed. (I believe a better equipped permitting agency could speed up the processes for the gas companies and provide a reasonable level of safety for the public.) While I do support the use of natural gas as a temporary viable option for a fuel source ("relieving in part our dependence on foreign oil") and the immediate influx of cash to the local economies seems like a great benefit now, I do not believe that anyone completely understands unforeseen negative impacts (social/environmental) which are/may be looming. When a builder proposes a sub-division a security bond is required for the installation of the infrastructure. After that, the taxes of the residents support maintenance. I do not see how the gas industry has provided any contingencies for future problems/issues. If there are none-GREAT!.. however likely as not it will be the common person who will end up footing the bill.

Time for them to pay their share

Greg Ulsh
Selinsgrove, PA

Severely cut education funding but don't tax gas extraction like every other state. The greedy have ascended into power. How stupid can this Commonwealth and this country get?

Robert H. Steinberg
Middleburg, PA

Please pay attention! The taxing is imperative!

Sally Carol Mathews
LEWISBURG, PA

Governor Corbett ran on a platform of not raising taxes and balancing the State budget. Noone would have ever guessed that this would be accomplished by cutting funding for this countries future, by cutting spending on public schools. Time to recover some of that money from the Gas companies and reinstate public school spending from the State.

John Schwab
Butler, PA

Kimberley Drexler
Lewisburg, PA

Heather Tillman
Pittsburgh, PA

We must protect our natural resources. A portion of profits from gas drilling must be used to provide environmental protection and remediation.

Joseph Metz
Sunbury, PA

Sue Jamison

PLEASE!!!!!!!

Michael Carter
Mifflinburg, PA

Perhaps if you will not impose the tax the Pa Politicians can pay for it out of their own pockets! Not mine I already pay enough tax to hire teachers and police etc... for the growing number of delinquents moving into our state!

Brenda Kahley
Mifflinburg, PA

Would you let your children drink the water? Tax franking and support education!

Gretchen Nash
Lewiisburg, PA

Nancy Schuchert
Moon Township, PA

Do the right thing. It may become a habit.

Melissa J. Tracy
Harrison Valley, PA

It is the responsibility of our politicians to make sure that gas companies do not leave without proper environmental cleanup.

Karen Fritz
Mifflinburg, PA

ENOUGH ALREADY! Other states are reaping the benefits while raping our land, Pennsylvania will never be the same.

Gwen Lemmerman
Mifflinburg, PA

THE LEAST we can do for Pennsylvania.

Curtis Brouse
Milton, PA

mifflinburg, PA

T. Michael Toole
Lewisburg, PA

This is a disgrace. We are in a budget crunch and the legislature and governor won't pass this important tax.

Martha Raak
Pittsburgh, PA

Why is our Governor protecting the drillers instead of us?

cindy dixon
Mifflinburg, PA

Gov Corbett, Protect us not the frackers.

I live in coal country. Less than 400 yards from my home the first coal was dug from a stream bed in around 1790. But now the coal is mostly gone, the money is gone. The stream only runs when it rains and only the damage remains!
